Standard Notes: - Represents zero. (D) Withheld to avoid disclosing figures for individual companies. (NA) Not available. (X) Not applicable.
n.e.c. Not elsewhere classified.

Represents material mined and prepared at the same establishment and material received from other establishments for preparation.

Represents gross shipments less receipts from other establishments of crude materials for preparation.

Figures for bentonite prepared in mineral industries other than the Bentonite Industry are included with figures for "Prepared in other industries."

Represents material sold and prepared at the same establishment and, for 1958, material received from other establishments for preparation.

Represents gross shipments less, for 1958, receipts from other establishments of crude materials for preparation. There were no such receipts in 1963.

Feldspar received from other establishments for preparation is included with feldspar mined and prepared in the same establishment.

Represents shipments by all mineral industries.

Includes, the, clay refractories, other structural clay products, and pottery and related products.

For 1958 Includes brucite: no brucite was reported shipped in 1963.

For 1963 figures for prepared common clay and shale shipments in New England are included with those for such shipments in Middle Atlantic.
